DECIDUOUS TREES

MAPLE

Amur Maple (*Acer ginnala*)

Height 5m* 16ft/ Spread 3.5m* 12ft

Zone 3

Full Sun

Small, graceful tree with glossy green, lobed foliage and sprays of small, fragrant yellow blooms on slender branches in the spring. Vibrant scarlet-red fall foliage and samaras. Prefers acidic, well-drained soil. Adaptable, extremely hardy and drought tolerant.

Pot Size	Price	Height	Price
#2	\$20.00	2m	\$200.00
		3m	\$300.00
		4m	\$400.00

Sugar Maple (*Acer saccharum*)

Height 15-18m* 50-60ft/ Spread 14-18m* 45-60ft

Zone 3

Full Sun

Full, symmetrical branching on fast-growing, upright, rounded form. Thick, glossy dark green foliage turns intense shade of orange, red and yellow in the fall. Resistant to leaf hoppers, sunscald and frost cracks. Prefers a moist, well-drained soil. Prune in Summer in full leaf as needed.

Pot Size	Price
#7	\$60.00

BUCKEYE

Ohio Buckeye (*Aesculus glabra*)

Height 9m*30ft/ Spread 7m*23ft

Zone3

Full Sun

Small, rounded tree with fragrant, upright cone shaped clusters of white-yellow orchid-like blooms in late spring. Palmately compound leaves, yellow to red fall foliage and large brown seed capsules. Tolerates a wide range of soil conditions.

Pot Size	Price
#2	\$20.00
#5	\$40.00
#15	\$120.00

BIRCH

Dahurian Birch (*Betula davurica*)

Height 10m* 32ft/ Spread 7m*22ft

Zone 3

Partial shade to Full Sun

An excellent fast-growing specimen tree. Bark is dense peeling in curling flakes but not exfoliating, brown tinged grey, often becoming totally grey with age. Twigs are dark grey with white glands. Leaves are dark green. Tolerates dry, gravelly and infertile soils. Ideal for landscapes, ornamental and ecosystem services.

Pot Size	Price
#7	\$40.00

River Birch (*Betula occidentalis*)

Height 6m*20ft/ Spread 4m*13ft

Zone2

Full Sun to Part Shade

Small pyramidal native tree with shiny red-brown bark highlighted by white horizontal lines. Oval toothed bright green foliage with lighter yellow-green underside turns yellow in the fall. Loves wet, sandy, acidic sites. Can be grown as a multi-stemmed or tree form.

Pot Size	Price
#1	\$10.00
#2	\$20.00
#5	\$40.00

Paper Birch (*Betula papyrifera*)

Height 12m*40ft/ Spread 6m*20ft

Zone3

Full Sun to Part Shade

Medium to large native tree. Reddish young bark matures to white, papery and peeling layers. Oval toothed green foliage turns bright yellow-gold in the fall. Prefers slightly acidic, moist, well-drained and afternoon shade. Multi-stemmed or tree form.

Pot Size	Price
#1	\$10.00
#2	\$20.00
#5	\$40.00
#7	\$60.00

OLIVE

Russian Olive (*Elaeagnus angustifolia*)

Height 7-9m* 23-30ft/ Spread 7-10m* 23-33ft

Zone 3

Full Sun

A small tree with a dense crown and thorny branches, silver foliage and strongly scented tiny yellow spring blooms. Silver-grey ornamental berries persist over winter. Very drought/salt tolerant once established in a moist, well-drained soil.

Pot Size	Price
#5	\$40.00

WALNUT

Black Walnut (*Juglans nigra*)

Height 24-30m* 66-100ft/ Spread 15-21m* 50-70ft

Zone 3

Full Sun

Large canopy of coarse branches with long green leaflets and edible nuts. Bark is heavily ridged and foliage turns bright yellow in the fall. Drought tolerant once established in a moist, well-drained soil.

Pot Size	Price
#15	\$50.00

APPLE ~Additional varieties available upon request

Siberian Crabapple (*Malus baccata*)

Height 6m*20ft/ Spread 6m*20ft

Zone2

Full Sun

Siberian crabapples are the hardiest species of the *Malus* genus. Dark or olive-green above, paler green beneath foliage; yellow fall colour. White to light pink umbel flowers. Grey-brown to reddish-brown bark. Small fruit measuring half an inch or less in diameter. Apples are red or yellow and enjoyed by birds.

Pot Size	Price
#2	\$20.00
#5	\$40.00

Rosybloom Crabapple (*Malus x adstringens*)

Height 6m*20ft/ Spread 4m*13ft

Zone 3

Full Sun

Very hardy, seedling sourced, suitable for grafting where a full-sized tree is desired. Upright, rounded canopy. Dark red-purple leaves. Red-Purple blooms in spring followed by small, dark red ornamental fruit which persists into winter. Foliage turns bronze- orange in the fall. Prefers a moist, well-drained soil. Great pollinator tree.

Pot Size	Price
#2	\$20.00
#7	\$50.00

Battleford Apple (*Malus 'Battleford'*)

Height 6m*20ft/ Spread 5m*16ft

Zone 3

Full Sun

A medium size, green-yellow apple with red stripes. Late summer apple, good for eating/cooking, with fair storage qualities. Prefers a moist, well—drained soil. Requires another apple within 150m for cross-pollination.

Pot Size	Price
#15	\$160.00

Hardi-Mac Apple (*Malus 'Hardi-Mac'*)

Height 3-5m*10-16ft/ Spread 3-5m*10-16ft

Zone3

Full Sun

A medium size, red apple with crisp, juicy white flesh; classic McIntosh apple. Good for fresh eating and cooking with and fair storage qualities. Prefers a moist, well-drained soil. Early fall apple requires another apple within 150m for cross-pollination.

Pot Size	Price
#25	\$200.00

September Ruby Apple (*Malus 'September Rudy'*)

Height 5m*16ft/ Spread 4m*13ft

Zone3

Full Sun

A large, sweet, bright red, fall apple, excellent for fresh eating and juicing with good storage qualities. Requires another apple tree within 150m for cross-pollinations. Prefers a moist and well-drained soil.

Pot Size	Price
#25	\$200.00

ASPEN/POPLAR

Assiniboine Poplar (*Populus x 'Assiniboine'*)

Height 15m*50ft/ Spread 6m*20ft

Zone 2

Full Sun to Part Shade

Fast growing tree that has a shapely oval form and dense foliage. This hybrid poplar is a male clone and produces no fuzz and fluff. Can handle tough conditions such as: urban pollution, environmental salts, droughts, poor soil and even some standing water. Developed by the University of Saskatchewan.

Pot Size	Price
#2	\$20.00

Paskapoo Poplar (*Populus balsamifera 'Paskapoo'*)

Height 7-8m*23-26ft/ Spread 7m*23ft

Zone2

Full Sun

Native, dwarf poplar with lateral branching pattern (resists snow-load damage). New red growth and dark green foliage with strong balsam scent. Insect/disease resistant. Drought tolerant- prefers dry soil once established in a moist, but well-drained soil. Propagated with permission from Ken Wright, of Wright Nurseries in Caroline, Alberta.

Pot Size	Price
#1	\$10.00
#5	\$40.00

Caliper	Price
40-50mm	\$175.00

Northwest Poplar (*Populus x 'Jackii'*)

Height 25m*80ft/ Spread 12m*40ft

Zone 2

Full Sun to Part Shade

A tall, large and fast-growing tree. Due to its wide spread, this tree makes a great shade tree or shelter-belt tree. Tolerates partial shade, drought and most types of soil. Produces no fuzz, male clone.

Pot Size	Price
#1	\$10.00

Swedish Trembling Aspen (*Populus tremula 'Erecta'*)

Height 12m* 40ft/ Spread 2m* 6.5ft

Zone 2

Full Sun to Part Shade

A fast growing, narrow, columnar poplar with orange-yellow fall colour. New bronze growth gradually turns green. Suitable for small landscapes, screens and vertical accents. Prefers a moist, well-drained soil. Drought tolerant once established.

Caliper (mm)	Price
35mm	\$150.00
40mm	\$175.00
45mm	\$200.00
50mm	\$225.00

Trembling Aspen (*Populus tremuloides*)

Height 15m*50ft/ Spread 6m*20ft

Zone 2

Full Sun to Part Shade

Native tree with pyramidal form maturing to rounded shape. Greenish bark accents small leaves turning deep yellow to orange in the fall. Tolerates most soil conditions. Excellent for large landscapes, naturalization and reclamation sites.

Pot Size	Price	Caliper	Price
#1	\$10.00	40mm	\$150.00
#5	\$40.00	60mm	\$250.00

Banff Poplar (*Populus trichocarpa 'Banff'*)

Height 18m*60ft/ Spread 12m*40ft

Zone2

Full Sun to Part Shade

Locally sourced, hardy and fast-growing native tree. Straight trunk, glossy, blue-green foliage and balsam-like fragrance. Smooth, yellow-grey bark becomes grey and grooved with age. Resists Forest Tent Caterpillar. Prefers a moist to wet soil; tolerates periodic flooding.

Pot Size	Price	Caliper	Price
#1	\$10.00	40-50mm	\$150.00
#5	\$40.00		

Didsbury Giant Poplar (*Populus trichocarpa 'Didsbury Giant'*)

Height 21m*70ft/ Spread 12m*30ft

Zone 2

Full sun

Propagation from a monumentally colossal Black Cottonwood Heritage tree ("Grandpa's Tree") planted in 1919 just outside of Didsbury, Alberta at the Fisher Homestead. A very large native tree tolerates some drought conditions but prefers a moist, well-drained location. We have been growing this tree for 20 years now, and it has consistently outperformed many common cultivars. Highly recommended shelterbelt or feature tree. Male clone, so no fuzz is produced.

Pot Size	Price	Caliper	Price
#1	\$10.00	60mm	\$275.00
#5	\$40.00	80mm	\$350.00

Tristis Poplar (*Populus x 'Tristis'*)

Height 15m*50ft/ Spread 9m*30ft

Zone 2

Full Sun to Part Shade

Grows slower than other new hybrids with extreme cold and wind hardiness. Seedless, rounded form with strongly scented balsamic buds. Holds onto its yellow fall foliage longer than other poplars, Ideal for large landscapes. Prefers a moist, well-drained soil.

Pot Size	Price
#1	\$10.00
#2	\$20.00

Great Plains Cottonwood (*Populus sargentii*)

Height 15-21m* 50-70ft/ Spread 14m* 50ft

Zone 3

Full Sun to Part Shade

Large, fast-growing adaptable seedless native poplar. Glossy green, heart shaped foliage turns yellow in the fall. Tolerates both dry and wet conditions and some standing water once established in a moist, but well-drained soil. Best for large open areas away from buildings.

Caliper (mm)	Price
35mm	\$120.00
150mm	\$300.00

CHERRY/PLUM ~Additional varieties available upon request

Sour Cherry Romance Series (*Prunus cerasus* 'Romance Series')

Height 2m*6ft/ Spread 2m*6ft

Zone3

Full Sun

Prairie hardy with white blooms in spring and glossy green foliage. Big, sweet, bright red translucent fruit ripens in late summer. Good for eating, jams and jellies. Self-pollinating. Prefers a moist, well-drained soil. Attracts birds.

Pot Size	Price
#10	\$60.00

Evans Cherry (*Prunus* 'Evans')

Height 3m* 10ft/ Spread 2m* 6ft

Zone3

Full Sun

A compact, highly productive, oval form fruit tree. Alberta introduction discovered by Dr. Ilean Evans and Brendan Casement of Alberta Agriculture near Vegreville. Showy white flowers in spring followed by loads of bright red sour cherries in mid-summer. Excellent for pies and jams. Moist, well drained soil, self-pollinating and extremely hardy

Pot Size	Price
#15	\$160.00

Amur Cherry (*Prunus maackii*)

Height 8m*26ft/ Spread 7m*23ft

Zone 2

Full Sun

A small rounded tree with showy panicles of white spring blooms and black ornamental cherries in the fall accenting bright yellow fall foliage. Striking, coppery bronze exfoliating bark on mature trees provides winter interest. Attracts birds. Prefers a moist, well drained soil.

Pot Size	Price	Caliper	Price
#2	\$20.00	30-40mm	\$175.00
#15	\$100.00		

Pembina Plum (*Prunus nigra x salicina* 'Pembina')

Height 5m* 16ft/ Spread 3m* 10ft

Zone 3

Full Sun

Hardest prairie plum. Large, late season clingstone plum with red skin and yellow flesh. Good for fresh eating/desserts. Needs another plum to cross pollinate. Prefers a Moist, well drained soil.

Pot Size	Price
18 gal	\$180.00

Muckle Plum (*Prunus x nigrella* 'Muckle')

Height 4m* 13ft/ Spread 3m*10ft

Zone 2

Full Sun

Small ornamental flowering plum with clusters of rich pink, fragrant blooms in early spring. Narrow, pointy green foliage turns orange yellow in the fall. Very hardy upright spreading form. Tolerates pollution and a variety of well-drained soils. Small specimen tree.

Pot Size	Price
#10	\$140.00

Mayday (*Prunus padus commutata*)

Height 8m*26ft/ Spread 8m*26ft

Zone 3

Full Sun

Rounded tree leaf's out early, followed by fragrant, long clusters of snow-white blooms, maturing to ornamental black fruit in the summer. Pointy green foliage turns bright yellow in fall. Accent or Shade tree. Intolerant of standing water. Attracts birds.

Pot Size	Price
#2	\$20.00

Pin Cherry (*Prunus pensylvanica*)

Height 5m* 16ft/ Spread 3m*10ft

Zone 2

Full Sun

Clusters of white blossoms appear before foliage in spring, followed by small, red edible cherries in the summer. Shiny red-brown bark accents shiny foliage which turns orange in the fall. Small, upright, oval native tree. Prefers well-drained soil. Self-fertile.

Pot Size	Price
#2	\$20.00
#5	\$40.00

Western Chokecherry (*Prunus virginiana*)

Height 8m*26ft/ Spread 6m*20ft

Zone 3

Full Sun

Large native shrub or small tree, with long clusters of small white spring blooms. Edible, dark purple chokecherries in late summer accent coarse, dark green foliage. Used primarily for reclamation, erosion control and naturalization. Drought tolerant. Attracts birds and wildlife.

Pot Size	Price
#2	\$20.00

Schubert Chokecherry (*Prunus virginiana* 'Schubert')

Height 6m*20ft/ Spread 5m*16ft

Zone 3

Full Sun

Upright, rounded to oval form with deep purple foliage from mid-summer onward to deep red in the fall. Very attractive racemes of fragrant white spring flowers followed by small, astringent black cherries.

Pot Size	Price
#2	\$20.00

PEAR ~Additional varieties available upon request

Early Gold Pear (*Pryus ussuriensis* 'Early Gold')

Height 6m*20ft/ Spread 5m*16ft

Zone 3

Full Sun

Early maturing green-gold fruit for fresh eating and preserves. White spring flowers and glossy green foliage, turning yellow to purple in the fall. Prefers a moist and well drained soil. Requires another pear in 150m for cross pollination.

Pot Size	Price
#15	\$160.00

Golden Spice Pear (*Pryus usseriensis* 'Golden Spice')

Height 6m*20ft/ Spread 5m*16ft

Zone 3

Full Sun

A small, golden-red, late fall edible pear, great for canning and spicing. White spring blooms, long thorns and glossy green foliage with attractive orange fall colour. Cross-pollination with another pear within 150m is required. Prefers a moist, well-drained soil.

Pot Size	Price
#2	\$20.00

MOUNTAIN ASH/ ROWAN TREE

European Mountain Ash (*Sorbus aucuparia*)

Height 9m*30ft/ Spread 6m*30ft

Zone 3

Full Sun

Larger than *S. americana*. Clusters of cream-white blooms in spring mature to orange-red ornamental berries and persist into the winter. Dark green leaflets turn red in the fall. Broadly oval to rounded shade tree. Prefers a slightly acidic, moist, but well-drained soil. Intolerant to wet conditions.

Pot Size	Price
#10	\$80.00

Greene's Western Mountain Ash (*Sorbus scopulina*)

Height 4m* 13ft/ Spread 4m* 13ft

Zone 3

Full Sun to Part Shade

Cascade mountain-ash is a shrub or shrub-like tree. Native to Banff and Lake Louise. Leaves are pinnately compound with 11-15 shiny leaflets. Small, white flowers occur in large terminal clusters and are followed by persistent, red-orange berries. This shrub forms in dense clumps, or rarely a small tree. Prefers moist, well-drained soils.

Pot Size	Price
#2	\$20.00

OAK

Northern Pin Oak (*Quercus ellipsoidalis*)

Height 12m* 40ft/ Spread 9m*30ft

Zone 3

Full Sun to Part Shade

Thick, glossy lobed green foliage that turns a vivid red in the fall. Great shade tree with a pyramidal-oval shape, medium growth habit. Drought tolerant once established in moist, well-drained soils. Tolerates heavier/alkaline soils. Great specimen tree. Olds College seed source.

Pot Size	Price
#1	\$10.00

Bur Oak (*Quercus marcocarpa*)

Height 15m*50ft/ Spread 9m*30ft

Zone 2

Full Sun

Hardy native oak for cooler temperatures. Slow growing with rounded, open canopy. Dark green lobed leaves that turn amber in the fall. Acorns and corky, ridged bark developing with maturity. Tolerates a variety of soils, pollutants and drought. Great Specimen tree.

Pot Size	Price	Caliper (mm)	Price
#2	\$20.00	45mm	\$175.00
#5	\$40.00	50mm	\$200.00
#7	\$100.00	55mm	\$225.00
#15	\$120.00	60mm	\$250.00

WILLOW

Lords Willow (*Salix alba acutifolia*)

Height 15m* 50ft/ Spread 15m* 50ft

Zone 2

Full Sun

Heritage tree of Red deer, Alberta. Tough and adaptable tree with low branches and wide spreading canopy. Extremely hardy for the prairie. Great for wind breaks, shade tree and in native plantings. Prefers moist, well drained soils.

Pot Size	Price
#5	\$40.00

Golden Willow (*Salix alba vitellina*)

Height 15m*50ft/ Spread 12m*40ft

Zone 2

Full Sun to Part Shade

Bright, golden-yellow new bark that is extremely showy and adds winter interest. Glossy green, narrow leaves turning gold in fall. Fast growing broad, pyramidal shape. Tolerates both dry and moist soil conditions, thrives in wet sites.

Pot Size	Price
#2	\$20.00
#5	\$40.00
#7	\$60.00
#15	\$120.00

Golden Weeping Willow (*Salix alba vitellina 'Cristatum'*)

Height 15m* 50ft/ Spread 9m*30ft

Zone 3

Full Sun to Part Shade

A weeping vigorous arching golden-yellow branches, showy in the winter season. Glossy green, narrow leaves that turn yellow in the fall. Plant in a moist to wet, but well-drained site.

Pot Size	Price
#1	\$10.00
#2	\$20.00
#5	\$40.00

Peachleaf Willow (*Salix amygdaloides*)

Height 18m*60ft/ Spread 9m*30ft

Zone 2

Full Sun to Part Shade

Native fast-growing willow. Long pointed leaves that are dark green on top and pale green underneath. Rough bark of the trunk is brownish-grey, shallowly furrowed and somewhat scaly. Grows in clumps, moist soil, erosion control, shelter belts, parks and large yards.

Pot Size	Price
#1	\$10.00
#2	\$20.00
#5	\$40.00
#15	\$120.00

Pussy Willow (*Salix discolor*)

Height 6m*20ft/ Spread 4m* 13ft

Zone 2

Full Sun

Native large shrub or small tree with multiple trunks and dark-grey, scaly bark/ Leaves are broad, bright-green and shiny. Rounded crown shape. Fast growing but should be cut back heavily every few years to encourage lots of vigorous new growth. Attracts birds, butterflies and insects.

Pot Size	Price
#1	\$10.00
#15	\$40.00

LILAC

Peking Tree Liliac (*Syringa reticulata* spp. *Pekinensis*)

Height 3.5m* 12ft/ Spread 2.5m*10ft

Zone 3

Full Sun

Non-suckering small specimen or street tree with large panicles of cream-white fragrant blooms in early summer. Dark green, heart-shaped foliage turning yellow in the fall. Attractive amber colored peeling bark. Tolerates a wide variety of moist, well drained soils. Drought tolerant once established.

Pot Size	Price
#7	\$80.00

ELM

American Elm (*Ulmus Americana*)

Height 15m*50ft/ Spread 15m* 50ft

Zone 2

Full Sun

Majestic vase-shaped native tree with deeply veined toothed dark green leaves, turning golden-yellow in the fall. Very hardy tree adapts to a variety of growing conditions and has a good salt tolerance. Plant in a large landscape, specimen or street tree. **Prune ONLY October to March as needed.**

Pot Size	Price	Caliper (mm)	Price
#2	\$20.00	50mm	\$200.00
#7	\$60.00	55mm	\$225.00
#10	\$80.00	60mm	\$250.00
#15	\$120.00	70mm	\$300.00

Siberian Elm (*Ulmus pumila*)

Height 15m*50ft/ Spread 15m*50ft

Zone 3

Full Sun

Medium growing pyramidal form with smaller serrated leaves compared to the American Elm. Prefers rich, moist loams. Adaptable to both wet and dry sites. Tolerates poor soils, drought and occasional flooding.

Prune ONLY October to March as needed.

Pot Size	Price
#2	\$20.00
#7	\$50.00

**Additional varieties are available upon request.*

CONIFEROUS TREES & SHRUBS

JUNIPER

Blue Chip Juniper (*Juniperus horizontalis* 'Blue Chip')

Height 30-40cm*12in./ Spread 2m*6.5ft

Zone 3

Full Sun

Wide Spreading groundcover with superb feathery silver-blue foliage that turns soft purple in the fall. Tolerates a variety of soil conditions, and air pollution. Drought tolerant once established. Groundcover, erosion control or accent in the landscape use. Blue berries

Pot Size	Price
#5	\$45.00

Calgary Carpet Juniper (*Juniperus sabina* 'Calgary Carpet')

Height 30cm*12in./ Spread 1.5-2m* 5-6.5in.

Zone 3

Full sun to Part Shade

Low spreading layered branches and wide spreading form with attractive arching, medium green colour and softly texture foliage. Great for rock gardens, draping over retaining walls and/or erosion control. Wind and drought tolerant once established. Prefers moist, well-drained soils.

Pot Size	Price
#5	\$45.00

LARCH

Tamarack (*Larix laricina*)

Height 15m* 50ft/ Spread 6m* 20ft

Zone 2

Full Sun

Open, pyramidal native tree. Clusters of soft, bright green spring needles, turning golden-yellow before shedding needles in the fall. As maturity, grey to red-brown bark and small red-brown cones will develop. Tolerates a range of soil types and drought once established. Thrives in moist/wet sites. Alberta seed source.

Pot Size	Price	Height	Price
#2	\$20.00	3m	\$300.00
#5	\$40.00	4m	\$400.00
		5m	\$500.00

Siberian Larch (*Larix sibirica*)

Height 12m* 40ft/ Spread 3m* 10ft

Zone 2

Full Sun

A more broad, pyramidal form than the native larch with bigger cones forming the first year. Cluster of soft, bright green spring needles turning golden-yellow before shredding in the fall. Eye-catching display year-round. Prefers a moist, well-drained soil, but is drought tolerant once established.

Pot Size	Price	Height	Price
#2	\$20.00	3m	\$300.00
#5	\$40.00	4m	\$400.00
		5m	\$500.00

SPRUCE

Purple Cone Dragon Spruce (*Picea asperata* 'Purpurea')

Height m* 50ft/ Spread m* 16ft

Zone 3

Full Sun

Pyramidal form with horizontal branches. Soft light green needles with grayish brown scaly bark. Cones are green in colour, maturing to a purple brown.

Pot Size	Price	Height	Price
#1	\$25.00	2m	\$200.00
#18	\$180.00	3m	\$300.00
		4m	\$400.00

White Spruce (*Picea glauca*)

Height 20m* 66ft/ Spread 5m* 16ft

Zone 2

Full Sun to Part Shade

Native, dense, large and hardy spruce. Green needles emerge light green in the spring and are shorter and softer than Colorado Spruce. New reddish seed cones mature to light brown. Strong central leader and a distinctive pyramidal form. Drought tolerant once established in slightly acidic, moist and well-drained sites. Suitable for large landscapes, naturalization and shelterbelts.

Pot Size	Price	Height	Price
#1	\$15.00	3m	\$300.00
#5	\$40.00	4m	\$400.00
		5m	\$500.00

Black Spruce (*Picea mariana*)

Height m* 50ft/ Spread m* 16ft

Zone 2

Full Sun to Part Shade

Native, dense and hardy spruce. Upward form with slender drooping branches. Blue/green stiff and short needles. Tiny, dense green cones that mature to a dark purplish colour. Drought tolerant once established but prefers moist, wet sites.

Pot Size	Price
#1	\$15.00

Colorado Spruce (*Picea pungens*)

Height 18m* 60ft/ Spread 5m* 16ft

Zone 2

Full Sun

Majestic pyramidal native evergreen with rigid, tiered branches with needles in varying shades of green to blue. Large light brown cones. Ideal for large landscapes, shelter belts or specimen tree. Drought tolerant once established in a slightly acidic, moist and well-drained soil.

Pot Size	Price	Height	Price
#1	\$15.00	3.5m	\$350.00
#2	\$25.00	4m	\$400.00
#10	\$100.00	4.5m	\$450.00
#15	\$120.00	5m	\$500.00

Montgomery Spruce (*Picea pungens glauca* 'Montgomery')

Height 4m* 13ft/ Spread 1.5m* 5ft

Zone 2

Full Sun

True-blue hardy, compact, dense rounded spruce. Eventually forms a leader and becomes more upright. Extremely slow growing. Use for accent or specimen. Retains colour with age. Drought tolerant once established in slightly acidic, moist, well-drained soil.

Height	Price
1.5-3m	\$300.00.

PINE

Swiss Stone Pine (*Pinus cembra*)

Height 10m*33ft/ Spread 4m* 13ft

Zone 3

Full Sun

Dense, conical, extremely slow growing with soft, dark green needles and smooth bark. Retains colour over winter. Resistant to sun/wind burns. Retains needles on lower branches with maturity. Drought tolerant once established in an acidic moist and well-drained soil.

Pot Size	Price
#10	\$80.00

Lodgepole Pine (*Pinus contorta latifolia*)

Height 12m* 40ft/ Spread 3m* 10ft

Zone 2

Full Sun

Alberta's Provincial Tree. Tall narrow form with an open and loose branching habit and a strong central leader. Dark Blue-green clustered and twisted needles with an attractive prickly inward facing pinecone. Prefers an acidic moist and well-drained soil but is adaptable to wet or dry conditions. Drought tolerant once established. Large landscape specimen evergreen.

Pot Size	Price	Height	Price
#1	\$15.00	2m	\$200.00
#2	\$25.00	3m	\$300.00
		4m	\$400.00

Limber Pine (*Pinus flexilis*)

Height 10m* 33ft/ Spread 5m* 16ft

Zone 2

Full Sun

A small- mid sized tree with short limber branches, the lower branches on older trees become very long and drooping but with upturned tips; becomes more rounded shape with age. Clusters of long, blue-green needles and long brown cones. Drought tolerant once established in acidic moist and well-drained soils.

Pot Size	Price	Height	Price
#1	\$15.00	2m	\$200.00
#2	\$25.00	3m	\$300.00

Red Osier Dogwood (*Cornus sericea*)

Height 2m* 6.5ft/ Spread 2m* 6.5ft Zone 2 Full Sun to Part Shade

Hardy Native, medium size shrub, tall arching form. Striking red bark on branches adds winter interest. Pointy green foliage turning crimson red in fall. White blooms followed by porcelain-blue ornamental berries. Excellent for stabilizing banks and naturalized planting where it can spread freely. Wright nursery seed source.

Pot Size	Price
#2	\$20.00
#5	\$40.00
#10	\$60.00

COTONEASTER

Hedge Cotoneaster (*Cotoneaster lucidus*)

Height 2m* 6.5ft/ Spread 1.5m*5ft Zone 2 Full Sun

Upright with shiny green foliage turning bright red in the fall. Small pink blooms in spring mature to black ornamental berries persisting over winter. Mainly used for hedging. Tolerates salt and pollution. Adaptable to a variety of soil types and conditions.

Pot Size	Price
#5	\$40.00

WOLF WILLOW

Wolf Willow/ Silverberry (*Elaeagnus commutata*)

Height 2m* 6.5ft/ Spread 2m* 6.5ft Zone 2 Full Sun

Hardy medium size native shrub. Silver-green foliage on rust colored stems. Upright spreading growth habit. Yellow spring blooms with a sweet, musky fragrance mature to silver ornamental fruit. Excellent contrast, mass planting and specimen shrub. High tolerant of adverse conditions. Very drought tolerant once established.

Pot Size	Price
#2	\$20.00
#5	\$40.00

FORSYTHIA

Northern Gold Forsythia (*Forsythia ovata* 'Northern Gold')

Height 2m* 6.5ft/ Spread 2m* 6.5ft

Zone 3

Full Sun to Part Shade

Earliest blooming and most hardy spreading Forsythia. Upright vertical form. First to flower in the garden often peaking out before all the snow is gone. Golden yellow blooms with bright green foliage in early spring. Prefers moist, well-drained soil but is drought tolerant once established.

Pot Size	Price
#10	\$60.00

SEABUCKTHORN

Sea Buckthorn (*Hippophae rhamnoides*)

Height 5m* 16ft/ Spread 4m* 13ft

Zone 2

Full Sun

Large upright arching native shrub. Fine silvery foliage, tiny yellow spring blooms and ornamental orange winter berries that smells like apples. Great for harsh landscapes, naturalization or barriers. Drought and salt tolerant. Dioecious, male and female plants are needed for fruit production.

Pot Size	Price
#2	\$20.00
#5	\$40.00

HASKAP

Haskap Berry (*Lonicera caerulea kamschatica*)

Height 90-125cm* 36-48in/ Spread 90-125cm* 36-48in

Zone 2

Full sun to Part Shade

Largest fruit with sweet, tangy flavour. Best flavoured variety for home gardener. Cross pollination within 150m to produce. Varieties available: Borealis, Berry Blue and Cinderella.

Pot Size	Price
#10	\$60.00

Honeyberry (*Lonicera caerulea var. edulis sp.*)

Height 1.5m* 5ft /Spread 1.5m* 5ft

Zone 2

Full Sun to Part Shade

Hardy shrub with highly nutritious edible, large, oblong-shaped, blue fruit in late spring. Good for fresh eating, baking, jams and jellies. Requires cross pollination with another Honeyberry or Sweetberry.

Pot Size	Price
#5	\$40.00

Sweetberry Honeysuckle (*Lonicera caerulea*)

Height 1.5m*5ft/ Spread 1.5m*5ft

Zone 1

Full Sun

Before the explosion of Honeyberries, Sweetberry Honeysuckle was the standard. It still has value as a tough landscape plant and as a cross pollinator.

Pot Size	Price
#5	\$40.00

NINEBARK

Dart's Gold Ninebark (*Physocarpus opulifolius* 'Dart's Gold')

Height 1.5m* 5ft/ Spread 1m* 4ft

Zone 2

Full Sun to Part Shade

Contrast and broad rounded shrub. Bright yellow leaves growing bigger and brighter in full sun and turns golden with bronze hue in the fall. Clusters of white spring blooms and peeling brown bark. Great contrast plant in residential or commercial landscapes. Tolerates a variety of soil conditions.

Pot Size	Price
#2	\$20.00

POTENTILLA

Mandarin Tango (*Dasiphora fruticose* 'Jefman')

Height 60cm* 24in/ Spread 60cm* 24in

Zone 2

Full Sun

Compact shrub with abundant orange-red flowers. Improved version of 'Orange Whisper'. Prefers a moist, well-drained soil but drought tolerant once established.

Pot Size	Price
#5	\$40.00

CHERRY

Cherry Prinsepia (*Prinsepia sinensis*)

Height 2m* 6.5ft/ Spread 2m* 6.5ft

Zone 3

Full Sun

A large shrub with thorny stems and a globular shape. Narrow, emerald-green leaves turning yellow in the fall. Yellow flowers in spring followed by showy red fruit in mid-summer. Can be used to create a impenetrable barrier.

Pot Size	Price
#2	\$20.00

Carmine Jewel Cherry (*Prunus x kerassis* 'SK Carmine Jewel')

Height 2m* 6.5ft/ Spread 1.5m* 5ft

Zone 3

Full Sun

A hardy, multi-stemmed, dwarf cherry. Showy white cluster flowers in the spring followed by good sized, tart, red cherries that ripen in mid-summer. Good for eating, cooking and jams. Self pollinating. Requires a moist, well-drained soil. Romance Series.

Pot Size	Price
#2	\$20.00

Nanking Cherry (*Prunus tomentosa*)

Height 2m* 6.5ft/ Spread 2m* 6.5ft

Zone 2

Full Sun

Upright spreading shrub. Perfect for mass plantings and hedges and suited to a variety of landscapes. Light pink to white blooms appears along the branches before foliage in the spring. Small edible, sweet-tart red cherries in late summer. Small, toothed, fuzzy green foliage turns bright yellow in the fall. Self pollinating. Prefers well drained soils.

Pot Size	Price
#2	\$20.00
#7	\$60.00

RHODODENDRON

Labrador Tea (*Rhododendron groenlandicum*)

Height 30-80cm* 12-32in/ Spreading

Zone 1

Full Sun to Full Shade

Native low spreading evergreen. Grey-green foliage is fragrant when crushed. Thick hairs on new growth becomes red with age. Abundant clusters of small white flowers in late spring or early summer. Prefers a moist, boggy soil, but tolerates drier, rocky soils. Alberta seed source.

Pot Size	Price
#2	\$20.00

SUMAC

Lemonberry (*Rhus triobata*)

Height 1-2m* 40-78in/ Spread 1.5m* 5ft

Zone 3

Full Sun to Part Shade

Thicket-forming, native sumac of Western Canada. Yellow spring flowers attracts bees and mature to red ornamental berries. Oak-shaped foliage turns yellow-red in the fall. Tolerates most soils and drought tolerant once established.

Pot Size	Price
#1	\$10.00

CURRENTS

Golden Current (*Ribes aureum*)

Height 1.5m* 5ft/ Spread 1.5m* 5ft

Zone 2

Full Sun to Part Shade

Upright shrub with arching branches. Green, lobed foliage that turns scarlet in fall. Fragrant, clove-scented, yellow flowers in the spring, followed by edible black berries. Very tough shrub that will thrive in any soil type and can be used in a variety of landscape uses, erosion control and hedging.

Pot Size	Price
#5	\$20.00
#10	\$60.00

Herbert's Golden Current (*Ribes aureum* 'Herbert')

Height 1.5m*5ft/ Spread 1.5m*5ft

Zone 2

Full Sun to Part Shade

Upright shrub with arching branches. Fragrant yellow spring blooms mature to abundance of edible black berries. Prefers evenly moist, well-drained soil, but tolerates drought or seasonal flooding and poor soils. Erosions control and hedging.

Pot Size	Price
#2	\$25.00

ROSE

Prickly Rose (*Rosa acicularis*)

Height 1m* 40inch/ Spread 1m* 40inch

Zone 2

Full Sun to Part Shade

Hardy Native rose and Alberta's provincial floral emblem. A small, brushy, prickly shrub with green leaves that turn scarlet in the fall. Single pink spring blooms mature to abundant, scarlet pear-shaped rosehips on prickly stems with green serrated leaves. Tolerates drought and poor soils once established in moist, well-drained soils. Good native shrub for mass plantings.

Pot Size	Price
#1	\$20.00
#7	\$50.00

Hansa Rose (*Rosa rugosa* 'Hansa')

Height 1.5m* 6ft/ Spread 1.5m* 6ft

Zone 2

Full Sun

Tall upright shrub with deeply veined dark green leaves that turn orange in the fall. Large, double, violet-red strongly fragrant blooms in summer followed by large red rose hips. Prefers a moist, well-drained soil. Drought tolerant once established.

Pot Size	Price
#10	\$60.00

RASPBERRY

Wild Red Raspberry (*Rubus idaeus*)

Height 1m* 40in/ Spread 50cm* 20in

Zone 2

Full Sun to Part Shade

Hardy native shrub with small, red edible berries in the summer. Primarily used for reclamation and barriers. White blooms, green serrated leaflets and arching, prickly red canes. Best in organically rich, well-drained humus soil. Self-pollinating. Cut 2nd year canes to the ground in the fall.

Pot Size	Price
#2	\$20.00

Boyne Raspberry (*Rubus idaeus* 'Boyne')

Height 2m*6.5ft/ Spread 100-150cm* 40-60in

Zone 2

Full Sun

Cold-hardy, mis-season raspberry with firm, sweet, juicy ruby-red on 2nd year canes. Used for fresh eating, freezing, canning or desserts. Best in organically rich, well-drained humus soil. Self-pollinating. Cut 2nd year canes to the ground in the fall.

Pot Size	Price
#5	\$40.00

WILLOW

Bebb's Willow (*Salix bebbiana*)

Height 2.5m* 8ft/ Spread 2m* 6.5ft

Zone 2

Full Sun to Part Shade

A fast growing, thicket-forming native willow. New downy foliage on new red-brown stems, matures to smooth, dark-green foliage on grey, slightly hairy branches. Great for reclamation and stream stabilization. Does well in wet, dry, heavy clay or rocky sites.

Pot Size	Price
#1	\$10.00
#5	\$40.00

Coyote Willow (*Salix exigua*)

Height 3m* 10ft/ Spread 2m*6.5ft

Zone 2

Full Sun to Part Shade

Colony-forming, native streamside willow. Narrow, finely textured silver-blue foliage on new yellow-green stems which mature to red brown. Prefers full sun and medium to wet, well-drained soils. Great plant for reclamation, stream and slope stabilization.

Pot Size	Price
#2	\$20.00
#5	\$40.00

Sandbar Willow (*Salix interior*)

Height 2m* 6.5ft/ Spread 2m* 6.5ft

Zone 2

Full Sun to Part Shade

Thicket-forming native shrub. Smooth grey bark flakes with age. Thin, narrow green-grey foliage has hairy underside on new leaves. Best in consistently moist to wet conditions but tolerates drought. Use for reclamation, streams or slope stabilization.

Pot Size	Price
#1	\$10.00

Yellow Willow (*Salix lutea*)

Height 3.5m* 12ft/ Spread 2.5m* 8ft

Zone 3

Full Sun to Part Shade

Narrow, long, slightly serrated green foliage on new red stems and yellow-white catkins in the spring. Bark matures to green. Native shrub. Prefers wet sites or seasonally flooded areas. Erosion control and reclamation plant for wet sites.

Pot Size	Price
#1	\$10.00

BUFFALOBERRY

Silver Buffaloberry (*Shepherdia argentea*)

Height 4m* 13ft/ Spread 3m* 10ft

Zone 2

Full Sun

Upright round form. Native shrub is a valuable, hardy and adaptable. Fuzzy, narrow silver foliage on thorny branches and red ornamental fruit in late summer. High tolerant of poor soils, cold and salt. Very drought tolerant once established. Wildlife food/ shelter source.

Pot Size	Price
#5	\$40.00

Canadian Buffaloberry (*Shepherdia canadensis*)

Height 2m*6.5ft/ Spread 2m* 6.5ft

Zone 2

Full Sun

Native shrub distinguished by its dark green oval foliage with a rust coloured underside. Soft, bright red berries add ornamental value and attracts birds. Tolerates poor soil. Commonly used for highway and reclamations sites.

Pot Size	Price
#5	\$40.00

ELDER

Red Berried Elder (*Sambucus racemosa*)

Height 3m* 10ft/ Spread 2.5m* 8ft

Zone 3

Full Sun to Part Shade

Narrow green leaflets on arching branches, accented by clusters of creamy white spring blooms maturing to red ornamental berries in the summer. Hardy, vigorous native plant adapts to a variety of soil types and conditions. Drought tolerant once established.

Pot Size	Price
#1	\$10.00

SPIREA

Ash leaf/ False Spirea (*Sorbaria sorbifolia*)

Height 2m* 6.5ft/ Spread 2m*6.5ft

Zone 2

Full Sun to Full Shade

Upright sprawling form. This plant needs room to grown as it produces suckers that will spread aggressively if unattended. Plumes of airy white blooms in spring highlighted by attractive dark green fern-like leaflets. Requires moist, well-drained soil. Excellent choice for erosion control along slopes and water runoff areas.

Pot Size	Price
#5	\$40.00

Little Princess Spirea (*Spiraea japonica 'Little Princess'*)

Height 75cm* 30inch/ Spread 100cm* 40inch

Zone 3

Full Sun

Dwarf, compact mound of oval, sharply toothed, mint-green foliage turning dark red in fall. Clusters of flat-topped, small pink blooms on new wood in summer. Prefers a moist, well drained soil. Low maintenance border, low hedge or foundation plant.

Pot Size	Price
#5	\$40.00

LILAC

Common Lilac (*Syringa vulgaris*)

Height 4m*13ft/ Spread 2.5m* 8ft

Zone 2

Full Sun

Vigorous suckering habit and single, fragrant lavender-purple blooms in spring with heart-shaped foliage. Great for hedges and windbreaks. Prefers a moist, well-drained soil. Drought tolerant once established.

Pot Size	Price
#10	\$60.00

CRANBERRY

Blue Muffin Arrowwood (*Viburnum dentatum* 'Christom')

Height 1m* 40inch/ Spread 1m* 40inch

Zone 3

Full Sun

Rounded with white blooms followed by clusters of intense blue ornamental berries. Glossy serrated foliage turns bright yellow in the fall. Prefers a moist, well-drained soils. Adapts to a variety of soil types and conditions. Drought tolerant once established.

Pot Size	Price
#5	\$40.00

Wayfaring Tree (*Viburnum lantana* 'Mohican')

Height 2m* 6.5ft/ Spread 1.75m*5.5ft

Zone 3

Full Sun to Part Shade

Compact, globular for with creamy-white, flat-topped bloom clusters through summer, maturing to orange red to black ornamental fruit. Leathery, veined green foliage turns purple-bronze foliage in the fall. Very drought tolerant once established.

Pot Size	Price
#1	\$10.00

Bailey Compact American Cranberry (*Viburnum trilobum* 'Bailey Compact')

Height 1.5m* 5ft/ Spread 1.5m* 5ft

Zone 2

Full Sun to Part Shade

Compact Highbush Cranberry with slight red edge on new foliage and deep red fall colour. Sporadic white bloom clusters in the spring, Edible red fruit in late summer. Drought tolerant once established in moist, well-drained soil. Hedge, border, mass planting or specimen shrub. Attracts birds.

Pot Size	Price
#5	\$40.00
